

## Reek Scientific Classification

R. Seno 10F

Diagram of Species:

**Domain:** Eukaryota

**Kingdom:** Animalia

**Phylum:** Chordata

**Class:** Mammalia

**Order:** Artiodactyla

**Family:** Bovidae

**Genus:** *Bos*

**Species:** *Bos Triceratops*

Reek an animal from the Star Wars Universe is part of the species of *Bos Triceratops*, meaning "Three Horned Faced Cow." *Bos Triceratops* is a chordate and that means it would have a notochord and a notochord is a skeletal rod supporting the back of its body. It's in the class of Mammalia because they are warm blooded, they have vertebrates, they have mammary glands, and breath through lungs. *Bos Triceratops* is an Artiodactyla that means they are even-toed ungulate (Hoofed animals), Artiodactyla are mostly herbivores as well. The *Bos Triceratops* is a Bovidae; Bovidae is are a part of a biological family of cloven-hoofed, ruminant mammals which means they are able to gain their nutrients from plant-based food. It is a genus *Bos* because Reeks can be

found in the ranches of Tatooine, Saleucami, Codian moon, and etc and they are cattle as well, they travel in herds and they use their horns when they feel like they're threatened. They are Called *Bos Triceratops* due to them being being a wild and could also be a tammed cattle and they have three horns on their faces, one above it's nose and the other two beside it's cheeks.
